Modular Robotics

What I Know About Data Collecting   **Appendix A.M.4**

Name_____Date_____

What have you learned, or discovered, about the Cubelets and how they work?

Why do you think data collection is important?

How might you use the data you collected today in your future explorations with Cubelets?

Let's say you are asked to pass along some advice to another student who has not yet worked with Cubelets. How would you advise them about working with Cubelets, collecting data, and making conclusions about Cubelet robot behavior?
